Your title and abstract

Your title and abstract are **your article's 'shop window'** so make it attractive:

标题和摘要是文章的展示窗口，需要具备吸引力

- Put what's new / what makes it different at the start
新颖的内容在开头展示
- Think about how someone will search for your research – what search terms will they use? 思考搜索词
- Use these in your title and abstract to make your article more discoverable (search engine optimization). 并在标题和摘要中使用
- Use clear, concise language that could be understood by someone outside of your field. 使用清楚简练的语言
- Draw out the main issues you are looking to address in both the title and abstract (but be brief!). 在标题和摘要中简练地指出你要研究的问题

What makes a good title

“We would typically expect a strong title, a good title that really expressed what the article was about and made it clear to the reader exactly what the topic was, and it’s amazing how often writers neglect to do that. 编辑期望文章有一个使读者一目了然的标题。然后我们惊讶于很多作者都忽略了这一点。”

Peer review

Taylor & Francis Group
an informa business

What is peer review?

Allows an author's research to be evaluated and commented upon by independent experts. 同行评审是独立专家评价作者研究成果的过程。

Which can take different forms:

- **Single-blind review:** where the reviewer's name is hidden from the author. 单盲评审
- **Double-blind review:** where the reviewer's name is hidden from the author and the author's name is hidden from the reviewer. 双盲评审
- **Open review:** where no identities are concealed. 公开评审
- **Post-publication review:** where comments can be made by readers and reviewers after the article has been published. 发表后评审

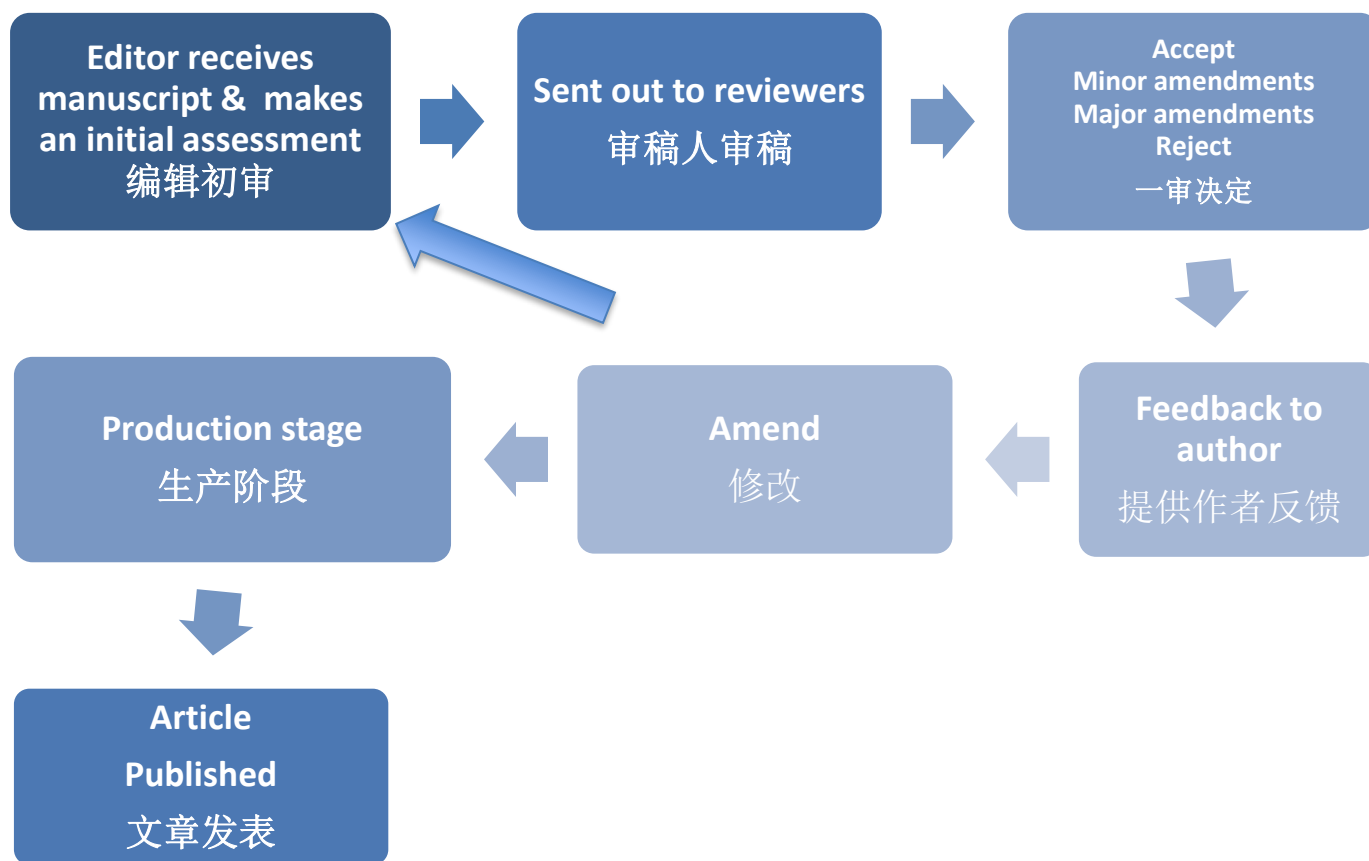

Every article published in a Taylor & Francis journal goes through rigorous peer review.

每一篇发表在Taylor & Francis期刊上的文章都要经过严格的同行评议。

Stages of peer review

How to handle reviewers' comments

- Try to accept feedback 尝试接受审稿意见
- Revise your paper as requested 按要求修改
- If you can't revise your paper as requested, explain why 若不能修改，提供解释说明
- Revise the paper following the timeline suggested by the Editor 按时提交修改稿
- Thank the reviewers for their time 感谢审稿人

If you're responding:

- Be specific 详细回复
- Defend your position: be assertive and persuasive, not defensive or aggressive 捍卫你的立场：自信有说服力，而不是防御性或侵略性

If you have questions, ask the Editor for guidance. A good editor will want to help. 遇到问题，请联系期刊编辑。负责任的编辑都会尝试帮助你。

Top ten reasons for rejection (what to avoid)

1. Sent to the wrong journal, doesn't fit the aims and scope, or fails to engage with issues addressed by the journal. 投稿到错误的期刊
2. Not a true journal article (i.e., too journalistic or clearly a thesis chapter or consultancy report). 不是真正的研究文章
3. Too long/too short. 太长或太短
4. Poor regard of the journal's conventions, or for academic writing generally. 不符合期刊或学术写作习惯
5. Poor style, grammar, punctuation, or English. 糟糕的文体、语法、标点符号或语言
6. No contribution to the subject. 对学科领域无贡献
7. Not properly contextualised. 没有适当的情境化
8. Poor theoretical framework. 薄弱的理论框架
9. Scrappily presented and sloppily proof read. 散乱的排版
10. Libellous, unethical, rude or lacks objectivity. 避免诽谤性的，不道德的，粗鲁或缺乏客观性的内容

What to do if your article is rejected

- Do nothing for a few days: try to calm down and try not to take it personally. 冷静下来，不要把它当回事
- You could use the reviewers' comments, alter the paper and submit to another journal. 借助审稿人意见修改文章，投稿给其他期刊
- **If you do submit elsewhere, make sure you alter your paper to the new style of that journal.** Editors can easily detect a paper that was submitted to another publication. 如果投稿给其他期刊，确保你的文章修改成该期刊的风格和格式
- If you are asked to make heavy amendments and resubmit, you must decide if it is worthwhile. 如果被要求做过多的修改，你必须决定是否值得这么做。

“Publicizing an article is work, but it’s worth it. I have received more emails about my article in the past two months than I have about all my other work in the previous year. Another university has invited me to visit because of my work, and my students are more excited about research because they see the attention it is getting. Not every article I write will be as interesting to the public, but I will definitely be working to do what I can to rustle up some interest in my work in the future.

宣传文章是一项工作，但是非常值得。”

Russell Warne, Assistant Professor,
Utah Valley University

“I disagree with the widely circulated mantra of “publish or perish”. Today, you can publish and still perish because there is now so much more published work than there was 1, 2, 5, 10, 20 years ago, and it’s more accessible than ever before. In this publishing climate, the question for authors – and which editors increasingly focus on – is who is going to be interested, and why? 我不同意广泛流传地“出版或灭亡”的口头禅。相比20年前，如今发表的文章远超当年并且能够通过各种方式获得。作者和编辑更加关心的是谁会对发表的文章感兴趣，为什么？”
